

BOCCI

118

The image features four spherical pendant lights with a white, textured, scale-like surface. They are suspended by thin, gold-colored cords against a solid black background. The lighting is soft, highlighting the intricate details of the spheres' texture. The number '118' is prominently displayed in the center in a large, white, sans-serif font.

Glass has a memory—it holds onto shapes it was exposed to while still molten. 118's dozens of tiny feather-like forms, in either opal or coloured glass, arise from this uncanny ability. When lit from within, the interior complexities of 118 come into even sharper detail.

Lamping

1.5W LED, 2500K

Material

Blown glass, electrical components
